Konrad Sagan

DevOps / Cloud Engineer · Linux · Docker / Kubernetes · Terraform · CI/CD · AWS

Warsaw, Poland | +48 519 766 859 | konrad.sagan20@gmail.com | github.com/JustKonrad | linkedin.com/in/justkonrad

PROFILE

4+ years in IT gained through work-study alongside my degrees (help desk, pre-sales, administration), including **2 years as a systems & network administrator** at HR Fusion: Linux and Windows servers in production, alerts and incident handling, access control. **2 years of hands-on Docker, Kubernetes and Terraform** in projects, plus **AWS** (EC2, S3, IAM, VPC) and MongoDB. I build CI/CD pipelines, harden servers (SSH, fail2ban) and document infrastructure so the whole team can run it. Master's graduate (Bac+5, 2026). Based in Warsaw, available immediately.

Key skills: Linux · Docker & Kubernetes · Terraform & Ansible · CI/CD (GitLab, GitHub) · AWS · monitoring & incident response · security & hardening · Bash, Python

TECHNICAL SKILLS

Linux	Ubuntu, Debian, RHEL: systemd, journalctl, permissions, SSH, performance troubleshooting
Containers	Docker, Docker Compose, Kubernetes (2 years in projects), ArgoCD / GitOps
IaC	Terraform (2 years in projects), Ansible (roles and playbooks)
CI/CD	GitLab CI/CD (multi-stage pipelines, manual approval before production), Git, GitHub
Cloud	AWS (projects): EC2, S3, IAM, VPC, EKS; Proxmox virtualisation
Monitoring	Prometheus, Grafana, Zabbix: alerts, logs and metrics
Security	server and SSH hardening, fail2ban, access management, incident response
Other	Bash, Python, PowerShell · MongoDB, SQL · TCP/IP, DNS, DHCP · Windows Server, Microsoft 365

EXPERIENCE

Systems & Network Administrator (work-study) — HR Fusion *Oct 2024 – Sep 2026*

Paris, France · apprenticeship alongside the Master's

- Administered Linux and Windows servers in production: updates, services, accounts, disk and performance issues, backups.
- Managed Microsoft 365, Entra ID and Active Directory: accounts, groups, licences and access rights, in an environment with personal data.
- Handled user tickets: diagnosis, resolution, or escalation with logs and reproduction steps.
- Monitored servers, responded to alerts and automated recurring tasks in PowerShell and Bash.

Technical Pre-Sales (work-study) — SCC France *Sep 2023 – Aug 2024*

Nanterre, France · apprenticeship alongside the Bachelor's

- Analysed customers' infrastructure needs and proposed automation solutions with sysadmin, development and architecture teams.
- Ran customer meetings on Microsoft Teams and wrote priced technical proposals.

IT Help Desk (work-study) — Circana *May 2022 – Aug 2023*

Chambourcy, France · apprenticeship alongside the BTS

- Handled user tickets in the company's internal ticketing system.
- Provided remote support; solved network, hardware and software issues.

PROJECTS

ecommerce-k8s-gitops — Kubernetes & GitOps *Personal project*

github.com/JustKonrad/ecommerce-k8s-gitops · Docker · Kubernetes · ArgoCD

- Deployed a multi-service e-commerce application to Kubernetes, with configuration versioned in Git and synced by ArgoCD.
- Debugged failed rollouts with kubectl: image pull errors, CrashLoopBackOff, wrong ports, service-to-service DNS.

INNOVACIA — Infrastructure & operations lead *Year-long Master's project*

Terraform · Proxmox · Ansible · GitLab CI · Zabbix · Prometheus/Grafana

- Defined the team's infrastructure as code in Terraform; configured servers with Ansible roles (SSH hardening, fail2ban, node_exporter) and monitored them with Zabbix and Prometheus/Grafana.
- Built a 6-stage GitLab CI pipeline with manual approval before production; wrote runbooks for the team.

EDUCATION & LANGUAGES

Master's degree — Systems, Networks & Cloud Computing, ESGI Paris (work-study) — graduated *2024 – 2026*

Bachelor's degree — Systems & Networks, ESGI Paris *2023 – 2024*

BTS SIO (SISR) — IT Infrastructure & Networks, ISW Institut Supérieur du Web *2021 – 2023*

Languages: Polish (native) · French (fluent) · English (B2, TOEIC 845)
